

# International Journal of Pharmaceutical Science Invention

e-ISSN : 2319-6718    p-ISSN : 2319-670X

## Contents :

Forensic Chemistry Study: Analysis of Phenylpropanolamine Hydrochloride in Urine by UV-Vis Spectroscopy	01-05
Formulation and In Vitro Characterization of Clonidine HCl Transdermal Drug Delivery System	06-16
Preparation And Evaluation of Nebivolol Microcapsule	17-26
Design Development and Evaluation of a Gastroretentive Floating Drug Delivery System of Dolutegravir for Enhanced Bioavailability	27-31
Exploring the mechanism of action of Buyang Huanwu Tang in treating post-stroke sequelae based on network pharmacology	32-42
Isolation of Probiotic Bacteria from Rice, Molecular Identification and Preparation of Probiotic Based Rice Milk -Shelf Life and Nutritional Analysis	43-54
In Silico Development and Evaluation of Doxorubicin Hybrids as Potent Anticancer Agents	55-65
Dashmoola: A Classical Ayurvedic Formulation for Human Health	66-73
Design Development and Evaluation of Gastroretentive Floating Extended-Release Tablets of Dolutegravir for Enhanced Bioavailability	74-80
Aquasome: Unlocking Novel Drug Delivery System	81-94
